## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

## BUSINESS REVIEW

During the three months ended 31 March 2016 (the “Period”), the revenue of the Group was HK\$265.3 million (2015: HK\$234.0 million), representing an increase of 13.4% as compared to the same period last year, and the profit attributable to owners of the Company was HK\$108.4 million (2015: HK\$83.0 million), representing an increase of 30.6% as compared to the same period last year.

As the overseas development platform of Tong Ren Tang, the Group is committed to promoting Chinese Medicine, an invaluable legacy of traditional culture, to the world thus heading to our goal of “Wherever there is need for health, wherever there is Tong Ren Tang.” Leveraging on the unique market position of the Group as well as developing through specialization, scale operation and collectivisation, the Group has established itself as a healthcare group that operates through a holistic industrial chain, that also embraces excellent Chinese traditional culture, echoing with our corporate spirit “Nurturing kindness and virtue, Preserving tranquility and wellness.” As at 31 March 2016, the Group has set up its business over 18 countries and regions out of the PRC, including Hong Kong, Thailand, Malaysia, Canada, Macao, Korea, Indonesia, Singapore, Australia, Cambodia, Brunei, the United Arab Emirates, Poland, the United Kingdom, New Zealand, the Netherlands, Czech and Sweden, realizing the dream of “Healthy life, Global choice.”

Chinese medicine is a treasure of Chinese civilization. The Group has been devoting itself to the promotion of this cultural heritage of our ancestors. In March this year, we attended the Boao Forum for Asia again and shared the precious experience of Tong Ren Tang’s overseas development so as to draw the world’s attention to the new development model of “Going global” with the reliance on the integration of online and offline services. With the new model, through our “Mobile personal health platform” we are able to extend our consultancy in medication and our philosophy in chronic diseases treatments, and to gather information for our Chinese medicine healthcare database. With technological advancement, the Group has fostered the global promotion of Chinese medicine and enhanced the international influence of Chinese medicine culture and services which echoed China’s strategy of “The Belt and Road” and “Maritime Silk Road.”

President Xi Jinping’s visit to Czech in March 2016, coinciding with Beijing and Prague having become sister cities, there were a series of activities organized by China and Czech together to exchange the ideas in the aspects of medicine and healthcare. We particularly invited certain famous Chinese medicine experts in China to head for Tong Ren Tang’s company in Czech and held promotion activity of traditional Chinese medicine in Prague that provided free Chinese medical consultation services and organized seminars on Chinese medicine and healthcare so as to allow the general public in Czech to experience the curative effect of Chinese medicine and recognize the appeal of the traditional culture of Chinese medicine.

## PROSPECTS

The year of 2016 marks the commencement of the “Thirteenth Five-year Plan.” As China continues its development of “The Belt and Road”, we are facing opportunities as we try to globalize China medicine and we will adhere to the five development concepts of “innovation-driven, coordinated, green, global progress and benefit of all.” Being loyal to our belief in “entrepreneurship, creativity and innovation,” the Group will aim to extend the influence of Chinese medicine communities to the mainstream of western society. At the same time, we attempt to transform the industry in four aspects: plantation and procurement, research and development and production, wholesale and retail chain, healthcare services, and thus, the Group will become a new window through which the Eastern and Western public come to understand the culture of Chinese medicine.
