Beijing Tong Ren Tang Chinese Medicine Company Limited Interim Report 2019

BUSINESS REVIEW

Though there was no apparent improvement in the trend of global economy recovery, coupled with the China-US trade tensions and other surrounding uncertainties, as well as the influence of rising prices of raw materials and stringent supervision over endangered raw materials, Beijing Tong Ren Tang Chinese Medicine Company Limited (the "Company", and its subsidiaries, together the "Group", "we" or "us") continued to pursue its approach of seeking progress amidst stability and was committed to developing into an elite, strong and long lasting economic entity according to the requirements of "Quality Advancements Year" proposed by China Beijing Tong Ren Tang Group Co., Ltd. ("Tong Ren Tang Holdings"). For the six months ended 30 June 2019 (the "Period"), it recorded a revenue of HK\$822.5 million (2018: HK\$759.5 million), representing an increase of 8.3% over the same period of last year, and profit attributable to owners of the Company of HK\$358.6 million (2018: HK\$307.5 million), representing an increase period of last year.

This year marks the 350th anniversary of the founding of Tong Ren Tang and the 15th anniversary of the establishment of the Group. Over the past 15 years, Beijing Tong Ren Tang has planted our roots in Hong Kong and expanded outwards. Following the introduction of "the Belt and Road Initiative", we have presented to the world the Traditional Chinese medicine ("TCM") products, services and culture which have been inherited for 350 years, and have shown people around the world a new way to live healthier. During the Period, the Group further optimized our business layout and the Group's business coverage outside of the PRC has covered 20 countries and regions and with a total of 74 retail outlets. We are now transiting from rapid development to quality development.

Market Exploration

Hong Kong is the core market of the Group. We have been strengthening our advertising and marketing efforts in Hong Kong, and are committed to enhancing the brand image of Tong Ren Tang. During the Period, in order to spread the message of "Perseverance To Good Health" and the brand's 350 years of persistence on professional craftsmanship, we have placed a series of large scale advertisements in Hong Kong to promote our cardiovascular and cerebrovascular health products as well as Sporoderm-broken Ganoderma Lucidum Spores Powder Capsules. It is the fourth consecutive year that we have the entire billboard advertisement on the tram station outside of our flagship store on Des Voeux Road Central in Central. This tram station has already become the symbol of Beijing Tong Ren Tang in Hong Kong to most of Hong Kong people. The advertisement placed at the tram station adopts the theme of "350 years of persistence on professional craftsmanship", with four major brand spirits of "Cultural Heritage, Craftsmanship, Integrity and Classic" to highlight Beijing Tong Ren Tang's ongoing efforts in spreading its corporate ethos underlined by the vision of "Healthy Life, Global Choice". In order to interact with and stay closer to the public, we update our Facebook page every month to provide timely information on TCM and healthcare, especially healthy seasonal recipes which are the most popular among our followers.

3

Moreover, we held the fourth "Capital State-owned Enterprises Open Day" at our Tai Po Production and R&D Base on 24 May. This event has attracted over hundreds of Hong Kong citizens and was reported by several major media organizations. Since this year marks both the 70th anniversary of the founding of the PRC and the 350th anniversary of the founding of Tong Ren Tang, we were honoured to have Mrs. Carrie Lam Cheng Yuetngor, Chief Executive of the Hong Kong Special Administrative Region, as our guest and delivered a speech at the event. It was also the first time that a Chief Executive participated in our "Capital State-owned Enterprises Open Day" activities. Numerous indoor and outdoor activities were held at our Tai Po Production and R&D Base that day. We have set up a herb garden and arranged a Ba Duan Jin (Eight-Section Brocade) demonstration at the outdoor area to let people learn about different kinds of Chinese herbs and to encourage people to stay healthy by doing more exercises. For the indoor area, visitors could find the exhibition foamboards introducing Beijing Tong Ren Tang's overseas activities under "the Belt and Road Initiative", and the demonstrations of rounding of herb pills, gold coating and herbs weighing as well as a Chinese Herbal Cabinet. We have also arranged tours of our production workshops and culture museum, healthcare seminars and free medical consultations for visitors, so that they would have a better understanding of Beijing Tong Ren Tang's history and our stringent supervision over the whole manufacturing processes of our products.

While taking Hong Kong as our core market, it is the Group's strategy to go international. For the overseas business of Beijing Tong Ren Tang, we have upheld the vision of "wherever there is a need for health, there is Tong Ren Tang", and connecting the global needs of public health through TCM. Beijing Tong Ren Tang won the "Leader of Natural Medicine" Award in the 9th Business Women Congress, 2019 held in Poland in recognition of Beijing Tong Ren Tang's highly recognised quality services and products in Poland, and making us the first and only enterprise to receive such award. During the Period, Beijing Tong Ren Tang (Auckland) Company Limited co-organised the 2019 "China Tourism Culture Week — TCM Culture and New Zealand Healthy Journey Promotion" held in Wellington (the capital of New Zealand), and had offered free medical consultations with medical practitioners at the event. It was the first time for Beijing TCM "Healthy Tour" being introduced overseas. Such cultural experience activities provided locals with in-depth experience and understanding of TCM culture, which was an expansive initiative to promote TCM culture in New Zealand. We have also increased our efforts in promoting TCM culture in Australia and Dubai by organising large-scale free medical consultations and healthcare seminars with an aim to bring TCM culture into the local community and enhance overseas influence of TCM and Tong Ren Tang brand. We are committed to promoting TCM culture wherever Tong Ren Tang has located and sharing TCM with people looking for a healthy life around the world.

HKAS 23 (Amendment)	Borrowing Costs
HKAS 28 (Amendment)	Long-term Interests in Associates and
	Joint Ventures
HKFRS 3 (Amendment)	Business Combinations

(b) Adoption of HKFRS 16

The Group has adopted HKFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the adoption of HKFRS 16 are therefore recognised in the opening balance sheet on 1 January 2019.

The Group is a lessee of various properties. Upon the adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as "operating leases" under the principles of HKAS 17 Leases except for short-term and low value leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The lessee's incremental borrowing rate applied to the lease liabilities on 1 January 2019 ranged between 4% to 6%. The remeasurements to the lease liabilities were recognised as adjustments to the related right-of-use assets immediately after the date of initial application.

3 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Adoption of HKFRS 16 (Continued)

The reconciliation of operating lease commitments to lease liabilities is set out below:

	HK\$'000
Operating lease commitments disclosed as at 31 December 2018	113,543
Discounted using the lessee's incremental borrowing rate of at the date of initial application (Less): short-term leases recognised on a	105,825
straight-line basis as expense (Less): contracts reassessed as service agreements Add: adjustments as a result of a different treatment of	(18,078) (663)
extension and termination options	33,997
Lease liabilities recognised as at 1 January 2019	121,081
Of which are:	
Current lease liabilities Non-current lease liabilities	40,124 80,957
	121,081

As at 1 January 2019, the associated right-of-use assets for property leases were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the balance sheet. There were no onerous lease contracts that would have required a significant adjustment to the right-of-use assets at the date of initial application.

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the lease term on a straight-line basis.

NOTES TO CONDENSED CONSOLIDATED

3 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Adoption of HKFRS 16 (Continued)

The adoption of HKFRS 16 affected the following items in the consolidated balance sheet at 1 January 2019:

Increase/(decrease)	HK\$'000
Non-current assets Right-of-use assets	122,017
<i>Current assets</i> Trade receivables and other current assets	(1,646)
Non-current liabilities Lease liabilities	80,957
Current liabilities Lease liabilities Trade and other payables	40,124 (710)

In applying HKFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- reliance on previous assessments on whether leases are onerous;
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2019 as short-term leases;
- the exclusion of initial direct costs for the measurement of the right-ofuse asset at the date of initial application; and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

3 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Adoption of HKFRS 16 (Continued)

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17 and HKFRIC 4 "Determining whether an Arrangement contains a Lease".

Assets and liabilities arising from a lease are initially measured at a present value basis.

Payments associated with short-term leases are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

The Group leases various properties of which rental contracts are typically made for fixed periods of 1 to 10 years but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. Some property leases contain variable payment terms that are linked to sales generated from a store and are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

3 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Standards and amendments which are not yet effective

4 ESTIMATES

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2018.

5 FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk and cash flow interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements as at 31 December 2018.

There have been no changes in the risk management policies since year end.

(b) Liquidity risk

Compared to 31 December 2018, there was no material change in the contractual undiscounted cash out flows for financial liabilities.
